

LOS PADRES CHAPTER SIERRA CLUB AND THE  
UNITARIAN SOCIETY OF SANTA BARBARA PRESENT

# AN ENERGY FILM FESTIVAL

A film festival focusing on energy production, energy conservation, what other communities are doing to reduce global warming pollution, and how our community can be fossil free by 2033. The films will include:

## THE POWER OF COMMUNITY

A Cuban community responds to an energy crisis.

## KILOWATT OURS

A journey of discovery by Jeff Barrie.

## FOSSIL FREE BY '33

The Community Environmental Council's energy initiative.

## AUTOS ON WELFARE

Look who pays for car useage and its hidden subsidies

There will be questions and answers following each movie led by local experts. Several energy related organizations will have booths at the festival.

APR. 28, 2007 4-8 PM

Parish Hall, Unitarian Society, 1535 Santa Barbara St, Santa Barbara

Come join us to learn more about how you can reduce your energy consumption and keep the earth cool. Dinner, beverages and snacks will be available. Admission free, donations appreciated!
