

Leap into Summer & Sierra Club Green Block

July 4th Street Fair
Downtown Ventura

Oak Street between
Santa Clara & Main St.

Solar Demos
Green Building
Global Warming

Bike Rodeo,
Games & Music
Prizes & Fun!

KidsVsGlobalWarming will show us where the sea level will be if we do nothing to prevent the ice caps from melting. They recruit kids and teach about global warming.

Please join co-hosts by **Shannon McComb**, **Alec Loorz** (both 13 years old) and **Erica Fernandez** (age 17) to learn about how we can all leap into action for our environment. Shannon, who started fighting Liquified Natural Gas (LNG) when she was eight years old, is this year's recipient of our **Environmental Hero** award and is also the winner of Earth Alert's annual **Equinox** Award. Alec is the founder of the non-profit organization, Kids vs Global Warming (www.kids-vs-global-warming.com) and the winner of the International Young Eco Hero Award awarded by Action for Nature, the Ventura County Emerging Leader Award by the Ventura County Leadership Academy and many other awards. Erika won the **2007 Brower Youth Award**, and many other awards for her environmental achievements

For parents: We have "Green the Home." Come learn how you can save money, energy and water in the home and garden.

For all: Ride your bike to the Fair and park it free and securely on Oak Street.

Tell us how to save energy and get a prize!
Tell us how you save water and get a prize!
Tell us how to reduce global warming and get a prize!
